Attachments: Draft Outline and Excerpts of FR Proposal for Revision of Subpart W.docx

Page 2 didn't seem to be affected with spillover text. The thing I'm finding is some formatting changes to the tables that I know that I didn't do. Not sure if this is something I can blame on new MS version 2013. The compare version is attached...

Caryn,

The minor change on page 2 did involve deleting over one line of text. Is it possible that dominoed through the document?

Hello,

Did anything else change in the document that you sent over this morning? I'm not able to replace page 123 or 124 without substantial re-printing. I only recall small editorial changes in the version I sent you on pages 2 & 123.

Thanks,
Caryn

Hi Caryn,

I accepted the two changes and saved the document. It is attached. Thank you for your help!

Reid
